THE TUFFTRAK BRAND

Ground protection mats are a critical safety solution in the oil & gas, transmission, and landscaping industries. TuffTrak® mats are manufactured from high density polyethylene compounds, giving them longer lifespans than wood alternatives. The AlturMat®, TrakMat® and LibertyMat®/EuroMat®, make up the medium duty matting line. These mats are ½ in. thick, feature UV protection to prevent material degradation, and their polyethylene construction guarantees that, unlike wood, these mats are tough, flexible, will bend but not break, and will not rot or become water logged. These mats are strong, but lightweight enough to be easily handled and deployed by a two-man team. This makes the construction of a temporary roadway or working platform possible in a matter of minutes. Don't let swampy or rugged terrain derail projects; TuffTrak® mats keep both vehicles and people moving with traction patterns designed to maximize grip and safety.

ALTURMAT

These rugged mats are virtually indestructible. They have been tested in record cold and heat, are environmentally friendly due to their recycled plastic construction, and with AlturMats®, getting stuck is virtually eliminated. Several different surface options are available, ranging from an aggressive tread to a more pedestrian friendly tread.

- **Supports vehicles up to 120 ton**
- **Limited Lifetime Warranty**
- Rugged diamond cleat for exceptional traction
- Optional low profile VersaTread® for walkable surface
- Optional smooth surface available
- Available in white or clear to prevent turf damage
- Turn-a-Link connectors available
- Optional hand cut outs for easy lifting

Part #	Dimensions	Weight
AM48	4 ft. x 8 ft.	86 lbs.
AM38	3 ft. x 8 ft.	64 lbs.
AM36	3 ft. x 6 ft.	51 lbs.
AM28	2 ft. x 8 ft.	43 lbs.
AM26	2 ft. x 6 ft.	32.4 lbs.
AM24	2 ft. x 4 ft.	21.5 lbs.

TRAKMAT

Trakmats® are some of the most versatile ground cover mats in the industry. They are designed to allow large vehicles to easily traverse lawns, sidewalks, driveways and more without causing damage. They also prevent vehicles from getting stuck in muddy, wet, and unstable ground conditions.

- Supports vehicles up to 90 tons
- Six year limited warranty
- Nubbed tread for great traction
- Green color stays cooler to prevent turf damage
- Two-way and four-way polyurethane connectors available
- Built in hand holds for ease of use

Part #	Dimensions	Weight
TM4496	44.5 in. x 8 ft.	78 lbs.
TM3696	3 ft. x 8 ft.	64 lbs.
TM2296	22.2 in. x 8 ft.	39 lbs.

LIBERTYMAT/EUROMAT

LibertyMats™ are great medium duty solutions for creating temporary roadways and work areas for the construction, civil engineering and ground work industries. Weighing just 77 lbs., LibertyMats™ are ideal for both short and long term projects.

- Supports vehicles up to 80 tons
- One year limited warranty
- Unique chevron traction® surface
- Two-way and four-way polyurethane connectors available
- Strategically placed hand holds
- Low transportation and handling costs

Part #	Dimensions	Weight
LIB48	96 in. x 47 in.	77 lbs.
